

Roosevelt Irrigation District

Invitation for Bids

Roosevelt Irrigation District is requesting Bids from responsible vendors to meet its needs. A brief description is set forth below for Bidder's convenience. Please refer to our website at <https://www.rooseveltirrigation.org/> for further information.

Brief Description:

Roosevelt Irrigation District is seeking Bids for construction work to replace concrete liner in its main canal. The general scope of work will be replacing the concrete liner with fiber mesh shotcrete approximately 4" thick. The areas of canal that are in need of this work are from the general area of McDowell Road to Pebble Creek Parkway, approximately 1880 feet plus or minus 20 feet. RID is accepting bids for all phases of the scope, for all scales of work, and will be emphasizing time windows of completion for the dates of November 10th 2025 to November 21st. All work must be completed within this RID annual dry up window.

Roosevelt Irrigation District is also accepting separate bids for concrete liner replacement with fiber mesh shotcrete approximately 4 inches thick in 10 separate areas within the District. Each of the 10 separate sites will have approximately 20 to 30 linear feet of liner to be replaced. The sites are individual lateral ditches with approximately 2-foot bottoms, 1-1.5 slopes to the top with a 4-inch flat layover on the top. Further plan details are on the listing page. RID is accepting bids for all phases of the scope, for all scales of work, and will be emphasizing time windows of completion for the dates of November 10th 2025 to November 21st. All work must be completed within this RID annual dry up window.

Roosevelt Irrigation District is also accepting bids for concrete liner replacement and patching on the East side of the District in the main canal. These areas will be prepped by the RID crew in advance, and the winning bidder will be placing concrete to match the thickness of the area of the patch, approximately 4 inches thick with fiber mesh concrete. This patchwork and liner replacement includes several areas with around 300 total linear feet equivalent of liner replacement. RID is accepting bids for all phases of the scope, for all scales of work, and will be emphasizing time windows of completion for the dates of November 10th 2025 to November 21st. All work must be completed within this RID annual dry up window.

Please read entire solicitation package and submit a Bid for evaluation in accordance with the instructions provided at our website, <https://www.rooseveltirrigation.org/>. All forms and signature areas should be completed in full and submitted along with the price proposal which will constitute the Bid. Bidding opens 10/20/2025. There will be a pre-bid questions meeting on 10/23/2025 at 7:30 am MST, a zoom link will be posted on the RID website. All bids must be submitted by 10/28/2025 at 12pm MST. Contact Kenneth Brill or Taylor Howerter with any questions at Kbrill@rooseveltirrigation.org or thowerter@rooseveltirrigation.org.

Bids that do not adhere to Form and Content of Bid requirements may not be considered.
